

UTE CANOPIES

utecanopies.com.au

*Smooth finish, fibreglass ute canopies and
a range of vehicle accessories to suit your needs.*

Canopy Styles

LIFESTYLE

Lifestyle ute canopies are perfect for everyday use - the roof height of the canopy sits flush with the height of the cabin, giving your vehicle a sporty look. All lifestyle canopies have internal vinyl roof lining and rear spoilers.

Lifestyle GSE-S Canopy

This canopy has side sliding windows; both the front end and the rear end of the window slide open, providing some accessibility into the cargo area.

Lifestyle GSE-L Canopy

This canopy has side lift up windows, giving you large side accessibility. Incorporates twin gas struts and slam latch doors for easy operation.

Also available: GSE canopy with side pop-out windows (limited stock). Ask in store for more information.

WORKSTYLE

Workstyle ute canopies are most suitable for tradesman - the higher raised roof makes room for extra cargo to be stored. All workstyle canopies have internal carpet roof lining and twin gas struts on all doors.

Workstyle CME Canopy

This canopy has side lift up doors with for quick and easy accessibility via the large opening. The panel doors limit visibility into the cargo area.

Workstyle CME-W Canopy

This canopy is very similar in physical form to the CME canopy, with side lift up windows for added finesse.

Also available: CML canopy with side lift-up ribbed doors (limited stock). Ask in store for more information.

Specifications & Features

Ford Ranger GSE-L canopy

Mitsubishi Triton CME canopy

Isuzu D-Max GSE-L canopy

Nissan Navara CME-W canopy

Toyota Hilux CME-W canopy

Additional Information

Caddy Storage offers ute canopies which are colour coded to the paint manufacturers' specifications. An identification colour code is developed by the paint manufacturer to try to accommodate any variations on vehicles painted worldwide as one generic colour.

The process of colour coding is not the same as colour matching. We do not offer colour matching or claim an exact colour match between the canopy and the vehicle. Colour matching is undertaken by vehicle repairers who can accurately match the colour of your vehicle irrespective of factory paint variations, or how old or weather-affected the vehicle is by varying the colour of the paint prior to application. If you seek an exact colour match to your vehicle, you should consult a panel beater for more information.

Ute canopies are not waterproof. They are weatherproof. If high pressure hoses or car washes are used on the canopy or tub, there may be leaks (in fact, in case you didn't know, ute tubs generally aren't waterproof either).

Canopies weigh approximately 100kgs each. This can vary depending on the style of canopy (ie. lifestyle/worktype, window configuration).
